SAMPLE OPEN HOUSE SCRIPT

(Greeting Prospective Renters or Future Home Buyers)

Hello. Welcome to our Open House!

(shake hands with a big smile) I'm _____, and what was your name?

(if others in party, kids too) And who's with you today?

Hi, nice to meet you, I'm _____.

So glad you could come. Let me just give you one of our flyers, it tells all about the home.

(pass out flyers)

A couple things I know you'll love about the home are (home feature #1), and (home feature #2).

Also the best thing of all is that we also offer this home through our Rent to Own Program, if you are interested in buying after renting. That means that if you qualify, then we will give you whatever help you need to own it.

Let's start by having you just fill out one of our Guest Registration Cards, and then you can look around and I (we) can answer any questions you might have.

(If you will be having a Prize Drawing) Of course I'll make sure to get your card into our prize drawing coming up at ____ o'clock.)

(Editor's Note: The reason for the Guest Registration Card is because one of your objectives is to get the name and contact information (especially email) for EVERYONE who comes to the open house. Even if they do not take the next step at this time and fill out a formal application, you have the contact information so you can follow-up with them regarding this house or any other house that becomes available in the future. Some landlords will send emails one, two and three days, later, etc., until the house is off the market. In addition, the person's name will be added to the landlord's prospect list. And until the prospect requests no additional contact, the landlord will and follow-up 3 months, 6 months, 1 year later or more when another house becomes available.)
